Thinking outside of the box?

If none of our roles fit for you, but you have a burning desire and you think a great idea to help us, then we might have just the team to work with you.

We have a group of volunteer managers based around the country who are charged with supporting entrepreneurial individuals who can help us achieve our vision.

People who don't fit in our boxes! Perhaps you've got an idea that could help raise hundreds of thousands of Rupees; maybe you've got an idea that could help our partners or could engage thousands of people in prayer.

If so, we're ready to listen.
